HIGH PRESSURE CLEANER POWXG90500

A 2200W motor, a flow rate of up to 450 litres per minute and a maximum pressure of 170 bar: this Powerplus pressure washer offers plenty of power to finish every job. Its 5m long cable and 8m water hose offer the needed flexibility and an extended range of motion. The pressure washer features a cable and hose reel, so they can never get entangled. With the automatic start-stop system, that only lets the motor run when the trigger gets pulled, the POWXG90500 helps to preserve water and electricity.

Thanks to the supplied accessories, the pressure washer can be used for cleaning patios, removing stubborn dirt and unclog blocked pipes. With the integrated 850ml detergent tank with automatic suction, the pressure washer achieves even better cleaning results. Its handy wheels and handle make it an easy to transport tool.

The pressure washer comes with an adjustable nozzle, fixed brush, patio cleaner, turbo nozzle and adjustable lance.
