Swivel cap knee pad industrial strength plastic cap
Nylon 1680D tough durable fabric
Air-injected gel

Essential for professional ceramic tile installers who have to spend long periods of time on their knees, supporting them, the IRONSIDE knee pads innovate thanks to an innovative ergonomic design and absorbing gel.

It combines the use of hard and resistant materials against knocks and irregularities of the ground, and the use of soft materials inside that adapt to each user.

Incorporating one extra-wide, neoprene bands, one of which is detachable, providing secure and comfortable fastening.
